Subject: Draft Agenda For An Initial Site Scoping Meeting With The PRP For Collierville

Sorry for the slight delay in getting you this agenda, my only excuse is that I have been incredibly busy and promise not to delay you in the future. I will probably be in Atlanta (Region 4) February 21st for a meeting that Nestor is setting up with the Law Engineering folks. If we could get both of these efforts scheduled for that week, maybe we could prevail on Nestor to reschedule his meeting for the 19th and we could meet with the Carrier/Ensafe folks on the 18th. This is yours and his call, but I can get the Department of Energy to pay for most of the trip if we can do all these activities that week. After you speak with Nestor and the others involved, please give me a call and I will schedule things with Randy Ryti (MSU). I will be with DOE at Los Alamos for the Tuesday through Friday next week and will try to give you a call before I depart, if we do not talk today. I am excited about the opportunity to extend the state of Superfund's hydrogeologic science with this project and further enhance the defensibility and the cost effectiveness of your decision making. I look forward to talking with you- happy new year.

*19th and 20th - DOE Meeting
Nestor in the a.m.; Beth in the p.m.
What time 9am*
